

An Introduction to the Culture Satellite Account

June 2016

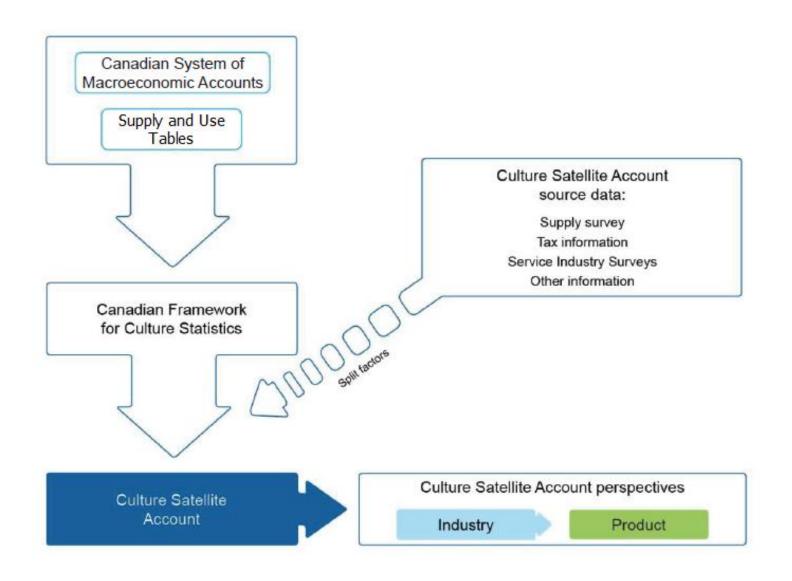

- Provides credible estimates of culture Gross Domestic Product (GDP) by domain and sub-domain.
- Supports credible estimates of culture for jobs, total output, and potentially other indicators such as labour income, international trade, and more.
- Enables comparison with other industries or activities, such as tourism.
- Separates cultural economic activity from non-cultural economic activity, so that they can be reported separately or together.

The Canadian System of Macroeconomic Accounts and the Culture Satellite Account

The Provincial and Territorial Culture Indicators (PTCI)

Statistics Canada Statistique Canada

- The Provincial and Territorial Culture Indicators (PTCI) are a related product of the Culture Satellite Account (CSA) project.
- The PTCI provide new data at the domain (but not sub-domain) level for the arts, culture, heritage, and sport for 2010 to 2014, inclusive.
- This is the third official CSA release, with the first in 2014 (national figures for 2010) and the second in 2015 (provincial and territorial figures for 2010).
- Some figures in the PTCI for 2010 may differ from those in the second official release.
 Such revisions are a normal part of all Statistics Canada datasets.

CULTURE

Canada

GDP

Culture contributed \$54.6B to Canada's economy (3.0% of its GDP) in 2014.*

Culture jobs, by domain (2014)

*Product perspective

Key Trend Highlights

- Culture GDP steadily grew from 2010 to 2014, by about 15.26% in total, from approximately \$47.4 billion to \$54.6 billion.
 - This is somewhat comparable to the growth rate of total GDP for Canada during this period, which grew by about 18.08%.
- The number of jobs remained effectively the same, only *slightly* increasing by 0.84%, from 625,206 in 2010 to 630,483 in 2014.
 - By contrast, total Canadian job growth was about five-times larger, equal to approximately 4.69% during the same period.
- Most domains grew during the 2010 to 2014 period, both in terms of GDP and jobs, with many posting double-digit GDP growth.
 - The GDP of several domains rose by about 20% or more, outpacing the growth rate of total Canadian GDP: Heritage & Libraries, Audio-visual and Interactive Media, Live Performance, and Visual & Applied Arts.
 - Only one domain, Written & Published Works, posted a decrease in GDP during the same period.

Further CSA work continues:

1. Improving the CSA

- The next full CSA, for reference year 2012 and inclusive of all domains and subdomains, will be released in Spring 2017.
- Statistics Canada will incorporate a number of refinements into the next CSA, based on the funding partners' feedback, improving the overall methodology.

2. Expanding the CSA

- Work on full suite of six CSA expansions culture trade (first official release), an economic impact model, culture tourism, digital products, volunteerism, and heritage conservation – begins this fiscal year (2016-2017).
- The first deliverables an official release of *Trade* data, and two feasibility studies (*Heritage Conservation* and *Culture Tourism*) are due in early to mid-2017.

Annex A: External CSA funding partners

- Work on the CSA is conducted by Statistics Canada however the collaborative project is financially supported by numerous partners:
 - Canadian Heritage
 - All thirteen Provinces and Territories
 - Canada Council for the Arts
 - Library and Archives Canada
 - Telefilm Canada
 - The Cultural Human Resources Council
 - Ontario Media Development Corporation
 - Ontario Arts Council
 - The Creative City Network of Canada and all participating municipalities (over 30 in total)
 - Ontario College of Art & Design University (OCAD)
 - BC Alliance for Arts + Culture

Annex B: Definitions

GDP

The unduplicated market value of final goods and services newly produced within a country's borders during a fixed period of time.

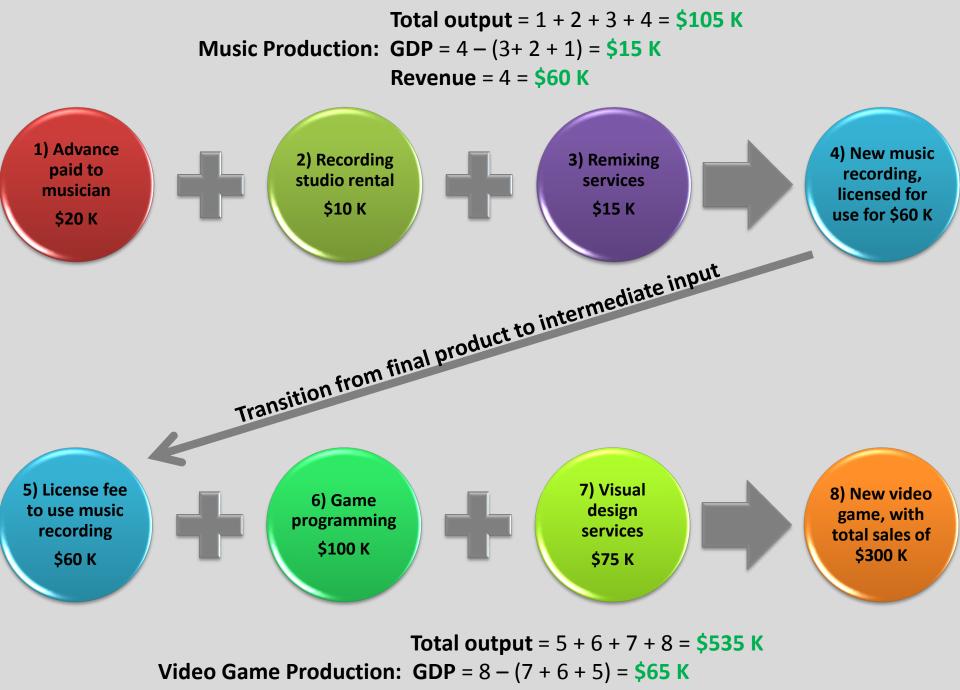

Total Output

Quantity of goods or services produced within a given time period, by a firm, industry, or country, whether consumed or used for further production.

Revenue (not included in the CSA)

The total receipts from sales of a given quantity of goods or services. It is the total income of a business and is calculated by multiplying the quantity of goods sold by the price of the goods.

Total Output vs GDP vs Revenue

Revenue = 8 = \$300 K

Heritage and Libraries

Included: Curation and restoration of services for artistic and historical works

Excluded: Transport of travelling

Live Performance

Included: Admission sales for

music concerts

exhibitions

Excluded: Construction trades (e.g. electrical, carpentry) used

for stage productions

Visual and Applied Arts

Included: Photographic, visual design and illustration services Excluded: Construction of outdoor advertising billboards or similar physical spaces

Written and Published Works

Included: Sale of advertising space in newspapers and magazines

Excluded: Manufacture and sale of inputs for printing services

(e.g. paper, ink)

(e.g. CDs, DVDs)

Audio-visual and Interactive Media

Included: Captioning and titling services for audio-visual works
Excluded: Manufacture and sale of media devices
(e.g. DVD players, televisions)

Sound Recording

Included: Recording services for a music album, or a radio commercial Excluded: Manufacture of sale of blank physical media

Governance, Funding & Professional Support **Included:** 1) Career management and representation services for artists, athletes, and entertainers

2) Public funding provided directly to government-run institutions (e.g. CBC, national museums, Libraries and Archives Canada, other public libraries)

Excluded: 1) General, non-cultural administrative services (e.g. accounting, clerical)

2) Operational funding provided via other means (e.g. interest payments from investments, rental fees)

Education & Training

Included: Post-secondary fine arts training (e.g. dance, sculpting)
Excluded: General, non-cultural

administrative services

Sport

Included: Admission sales for

live sports events

Excluded: Manufacture and sale

of sports equipment (e.g. hockey sticks)

Multi-domain

Included: Admission sales for multi-themed festivals (e.g. music and crafts)

Excluded: Anything not otherwise included under any of the other domains
